

Protective Linings

FOR PETROLEUM & SOLVENT STORAGE TANKS

SERIES 61 TNE-LINER

A thin film, highly cross-linked, cycloaliphatic amine epoxy lining with excellent corrosion and chemical resistance.

Aviation Gas	Benzene	Coal Oil	Crude Oil (sweet or sour)
Cyclohexane	Cyclohexanol	Diesel Fuel	Ethanol
Gasoline (regular grades)	Gasoline (with MTBE or TBA)	Gasohol	Heating Oil
Hydraulic Oil	Jet Fuels	Kerosene	Lubrication Oils
Mineral Oil	Mineral Spirits	Naphtha	n-Propyl Alcohol
Toluene	Turpentine	Xylene	

SERIES 120 VINESTER

A thin film, novolac vinyl ester lining for sour crude and chemicals with excellent corrosion resistance.

Crude Oil (sweet or sour)

SERIES 330 GLASS ARMOR 300

A thick film, modified amine epoxy lining for corrosion protection and restoration of storage tanks.

Aviation Fuel	Benzene	Crude Oil (sweet or sour)	Diesel Fuel
Ethanol (50%)	Fuel Oil	Gasoline (regular grades)	Gasohol (E10 to E30)
Heating Oil	Jet Fuel	Mineral Spirits	Kerosene
Naphtha	Trichoroethylene	Xylene	

SERIES 345 GLASS ARMOR 450

A thick film, low temperature cure, modified amine novolac lining for storage tanks.

Acetone	Aviation Fuel	Benzene
Biodiesel (B20)	Crude Oil (sweet or sour)	Diesel Fuel
Ethyl Alcohol	Gasoline (regular grades)	Gasohol (E10, E20, E30, E85)
Heating Oil	Jet Fuel	Mineral Spirits
Kerosene	Naphtha	Toluene
Trichoroethylene	Xylene	

SERIES 351 GLASS ARMOR 510

A polysulfide/novolac epoxy repair and base coat that can be used in conjunction with other Glass Armor products.

Protective Linings

FOR PETROLEUM & SOLVENT STORAGE TANKS

SERIES 350 GLASS ARMOR 500

A thick film, epoxy phenolic lining with high cross-link density for storage and process tanks.

Acetone	Aviation Fuel	Benzene	Biodiesel (B20)
Crude Oil (sweet or sour)	Diesel Fuel	Ethyl Alcohol (E100)	Fuel Oil
Gasoline (regular grades)	Gasohol (E10, E20, E30, E85)	Heating Oil	Jet Fuel
Mineral Spirits	Naphtha	Toluene	Xylene

SERIES 365 GLASS ARMOR 65

A thick film, highly cross-linked novolac epoxy lining for fuels and severe chemical immersion.

Aviation Fuel	Benzene	Crude Oil (sweet or sour)	Diesel Fuel
Ethanol	Ethylene Glycol	Fuel Oil	Gasoline (regular grades)
Gasohol (E10, E20, E30, E85)	Hexylene Glycol	Isopropyl Alcohol	Jet Fuel
Kerosene	Methyl Alcohol	Methyl Ethyl Ketone	Mineral Spirits
Naphtha	Naphthalene	Octanol	Pine Oil
Propylene Glycol	Toluene	Turpentine	Trichloroethylene
Xylene			

SERIES 390 GLASS ARMOR 90

A thick film, modified amine novolac epoxy lining for fuel & chemical tanks and transports.

Aviation Fuels	Benzene	Biodiesel (B20 to B100)	Butanol Normal
Butanol Tertiary	Butyl Cellosolve	Crude Oil (sweet & sour)	Diacetone Alcohol
Diesel Fuel	Ethanol	Ethylene Glycol	Gasohol (E10, E20, E30, E85)
Heptane	Heptanol	Hexylene Glycol	Isobutyl Alcohol
Isooctane	Isopropyl Alcohol	Jet Fuels	Kerosene
Naphtha	Polyethylene Glycol	Toluene	Trichloroethane
Triethylene Glycol	Xylene		

For detailed product information, application guides and additional fuel resistance, contact your Tnemec coatings consultant.
